Forecast for Friday 14 Aug 2020

Weather: Most areas will be overcast in the early hours with intermittent drizzle, and hills will be shrouded in cloud above about 400 metres with widespread fog. Misty conditions expected at lower levels. Warm sunny spells will develop during the morning with most parts becoming free of cloud, especially western glens, although some low cloud may linger in the northeast.

Chance of cloud free mountain/hill tops above 800m: 10 percent at first with low cloud cover. Becoming 80 percent as sunny spells develop. Becoming 20 percent soon after dusk.

Visibility: Very poor in widespread fog on mountains slopes, moderate in valleys. Becoming mainly good or very good with distant hills visible. Becoming moderate or poor again during the evening.

Met Office Aberdeen Meteorologist's View
Feeling pleasant enough on the mountains with light winds, but risk of sunburn with exposure.

Forecast for Saturday 15 Aug 2020
Weather: Overnight, low cloud and fog on slopes will return westwards, and then clear during the morning again to give some pleasant sunny spells by day, and risk of sunburn. Feeling pleasant with light winds at higher altitudes, warm in sheltered glens.

Maximum wind: Light winds with gusts to 10 to 15 mph.

Chance of cloud free mountain/hill tops above 800m: 10 percent at first with low cloud, then becoming 90 percent during the morning as cloud breaks develop.

Visibility: Very poor on higher slopes, moderate in valleys, becoming mainly good or very good during the morning.

Temperature: **Glens:** 12 bec 20 deg C
At 800m: 11 bec 16 deg C
Freezing level: Above the tops.
